

INN^{OR}OUT

The Louise Blouin Foundation is one of the capital's most innovative architectural spaces and provides an extremely flexible and adaptable setting for all types of event

Louise Blouin Foundation —W11

The London stock brick exterior with arched windows has been beautifully restored, while the interior has been stripped out, creating an unexpected state of the art white space with a polished concrete floor.

By day the gallery spaces are flooded with natural daylight, by night the windows are illuminated in a moving spectrum of colour which marks this out as a completely unique venue in London.
