

THE ENERGY CLINIC

All zones are available for hire and are suitable for exhibitions, presentations, trade and fashion shows, press days, launch parties and much more.

The concept was a brainchild of the world-leading Feng Shui consultant Zdeslav Radovic, who teamed up with award winning architect Davor Busnja, the result was series of environments each designed to enhance a different aspect of your meeting.

Each utilises a combination of Feng Shui, colour, specially composed music and chic Walter Knoll furniture to create the totally individual atmospheres. Where many traditional meeting spaces are dull, boring and uninspiring, the Energy Clinic is positive and energising with a focus on making your people feel good. When they feel great – they work well!

There are five rooms or energy zones to choose from depending on your purpose of the event. Also on offer are a wide range of services and products to ensure that you all feel great and work well during your visit for instance spa services, energising sessions, wellness seminars and performance enhancing sessions can be built into any day.

Room Capacity
